Personal and Social Skills

I consider myself a reliable, determined and hardworking person. Sometimes too much quiet and suspicious, but I'm working on it. My goal is to improve myself without changing who I am. Working with a solid and cohesive group excites me, but if I have the opportunity to work independently, I am ready to bring out my best. Thanks to the university course I acquired the ability to relate clearly and courteously to every kind of person (professors, colleagues, university staff).

Non-professional Interests

I like music and soccer. I love watching Milan playing. On hot days I love to reach the seaside resorts of my Puglia and enjoy the irresistible sunsets.
