MAIN THEMES:

- Technological Progress and Digitalisation of Work
- Demographic Changes: Towards Sustainable Work
- Climate Change, Natural Disasters and Local Potential
- The Role of Skills and Trades in Transitional Labour Markets
- Geography and Work in a Changing World

SOCIAL PROGRAMME

Some leisure activities will be also made available at the end of the conference to enable participants to appreciate the beauties of Bergamo and the areas nearby, and to enjoy unique views which include lakes and mountains.

THE FUTURE OF WORK a matter of sustainability

Università degli Studi di Bergamo
11-12 November 2016
Historical complex of S. Agostino
Piazzale S. Agostino, n. 2

THE GREAT DEBATE - PhD Competition

A debate will take place among our **Doctoral students** on some **key aspects** of the future of work. They will be divided into small **groups** and will debate in front of a panel of **distinguished arbitrators**, who will select the best “debater” by assessing the ability to argue in favour of or against his/her thesis.
