September 2018 – January 2025: **Educational and Pedagogical Center “L’Albero di Kairos”**

- Provided academic support across all school subjects, with a focus on scientific disciplines.
- Developed tailored teaching methods for students with Specific Learning Disorders (SLD).
- Created outlines and concept maps to aid learning.
- Managed and optimized learning strategies.

Professional Skills

Expertise in Labor Law: Earning my Master's Degree in Law has provided me with a broad and comprehensive understanding of the main areas of law. In particular, through my thesis work, I was able to delve into innovative topics related to the introduction of Artificial Intelligence systems in both public and private workplaces, with constant attention to European regulations and their impact on national legislation.

Teaching-related skills:

Through my experience as an academic tutor at an educational and pedagogical center, I developed strong organizational skills, along with educational coaching and problem-solving techniques that enabled me to respond effectively to change. Constant interaction with students of different ages and educational backgrounds required the identification of individualized teaching methods, allowing me to develop effective motivational strategies and active learning approaches, as well as strong communication and collaboration skills.

Language Skills

Italian:

native speaker.

English:

B2 level, certified by passing the English language exam L-LIN/12.

Spanish:

A1 level.

IT Skills

Word Processing: highly skilled

Spreadsheets: highly skilled

Presentation Software: highly skilled

Office Suite: highly skilled

Web Browsers: highly skilled

Programming Languages: basic knowledge

Web Programming: basic knowledge

Network Architectures: basic knowledge

Operating Systems: highly skilled
