Professional Skills

Human Resources skills: The postgraduate master's program allowed me to build the expertise to navigate the human resources domain, combining hard and soft skills.

Philosophical skills: My Bachelor's and Master's studies in Philosophy allowed me to develop transversal competences such as critical thinking, complex analysis and written communication.

Language Skills

Italian: Native

English: European level A2.

French: Studied during the Bachelor's Degree in Philosophy, level: A2.

Scuola di alta formazione in **transizioni occupazionali e relazioni di lavoro**

IT Skills

- **Word processing:** highly specialized
- **Spreadsheets:** highly specialized
- **Presentation software:** highly specialized

Personal and Social Skills

Astute, curious and dynamic. Ambitious, inclined to work in a team but also able to work independently. Excellent problem-solving skills. Excellent communication abilities.

Non-professional Interests

Passionate about animal rights and environmentalism, I have collaborated with a non-profit organization (LEAL) to help spread awareness of animal rights issues. I love reading, as well as bioethical and moral philosophy.
